CLEVELAND

PUNCH & DIE COMPANY

ESTABLISHED 1880

THE CLEVELAND ADVANTAGES

Going the Extra Mile and Delivering on Our Promises For Over 140 Years

THE WORLD LEADER IN THE TOOLING INDUSTRY

With over 140 years of experience in the industry, our team at Cleveland Punch & Die is dedicated to support our customer's needs. We have the industry's largest stocking inventory and are the OEM recommended supplier for machines across the industry. As the world-class leader in tooling and related components, you can be assured of our commitment to excellence.

THE GREEN TEAM

Our customer service team is here to provide the knowledge and service you deserve and strives to develop long lasting partnerships. We are available by phone, email or online chat 7am - 6pm EST.

WORLD CLASS ENGINEERING

Our Engineering team works hard to design the highest quality punches, dies, shear blades, and custom tooling on the market. Our high quality and innovative tools keep your shop on the leading edge of technology.

CONSISTENT QUALITY

We provide our customers with tooling manufactured from our own proprietary tool steel. By utilizing a consistent raw material and the latest metallurgical heat-treating technology, the tooling you receive from Cleveland Punch & Die is the industry's highest and most consistent quality.

DEPENDABLE DELIVERY

Our commitment to manufacturing innovation enables Cleveland Punch & Die to provide you with prompt shipment on the highest quality tools you need. Fast delivery means increased productivity for your operation.

CUSTOM APPLICATIONS

Countersink, Double Step, Keyhole, Lattice Bar, Louver, & Ripping Punch

COUNTERSINK

- Punch and form a countersink hole to allow flathead bolts or screws to sit flush with material surface.
- Please provide bolt/screw size and material thickness when ordering.

DOUBLE STEP

- Punch holes close to the inside leg of angle iron or channel.
- Please provide angle, channel, or I-beam specifications along with hole location when ordering.

KEYHOLE

- Used in removable applications where a bolt, chain, or anchor needs to lock in place.
- Common uses include pallet racks, shelving, dump truck bodies, and tow trucks.

LATTICE BAR

- Shear and generate one or two radii on flat bar material.

LOUVER

- Generate an angled slat in material. Most commonly used to allow for air ventilation.

RIPPING PUNCH

- Produce an elongated hole where the desired length exceeds the machine capacity.
